to me

Greetings Warren,

Thank you for the opportunity to review Daniel's draft letter of support.

I don't see anything there that requires board approval as long as Dan approves it and advises the board in his Chief's report. We certainly support all efforts as a district to fund implementation, and there are no obvious conflicts involved.

I do think if Dan has concerns he should talk directly with Dave. As you stated, this does nothing to bind or obligate GVFPD to anything.

Please let me know if you have any questions or concerns.

Thank you, Bill
