Q4 Please assess your belief in the relevancy of the successful 2018 mill levy increase request of four mills, known as 6B, which had the following priorities contained in the ballot language: "...The board has budgeted spending the new funding to 1) recruit, equip, and train additional first responders commensurate with the square miles in the district and the projected increase of population; 2) properly maintain aging equipment; and 3) address operating expenses, facilities, and personnel equipment and training."

Q5 GVFPD passed a new building mill levy originally passed in 2002, which is scheduled to expire in 2023. This mill levy is set at 1.15 mills which equals approximately \$25,000 per year of GVFPD tax income.

GVFPD has used these funds to pay for fire station one. Would you support an extension if dedicated to enhance emergency response in the following areas: (additional response facilities; fiber optic and technology upgrades at fire station one as regional training center; design and construction of a training location and structure; enhancements to fire station one to provide for growth needs).
